## Profile Summary

A motivated and optimistic learner with hands-on experience in Java and MERN stack. Skilled in building web applications and small-scale projects, eager to contribute effectively to real-world software solutions and collaborative projects.

## Academic Qualifications

- |                                           |                     |
|-------------------------------------------|---------------------|
| • <b>Bachelor of Technology (CS-AIML)</b> | <b>2022–2026</b>    |
| Allenhouse Institute of Technology        | <b>CGPA: 7.7/10</b> |

## Internships

- |                                                                                                                                                        |                            |
|--------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------|
| • <b>Java Intern</b> , InternPe (Remote)                                                                                                               | <b>Aug 2024 – Sep 2024</b> |
| Gained hands-on experience in Java programming by developing small projects such as Tic-Tac-Toe, while improving problem-solving and technical skills. |                            |

## Projects

- |                                                                                                                                     |             |
|-------------------------------------------------------------------------------------------------------------------------------------|-------------|
| <b>CineSphere – Online Movie Booking System</b>                                                                                     | <b>2025</b> |
| • Designed and developed a full-stack MERN-based platform enabling users to search movies, view showtimes, and book tickets online. |             |
| • Implemented seat selection, authentication (JWT), and secure payment integration for a seamless booking experience.               |             |

- |                                                                                                               |             |
|---------------------------------------------------------------------------------------------------------------|-------------|
| <b>ShaktiRide – Women-Only Ride Booking Platform</b>                                                          | <b>2025</b> |
| • Built a React + Node.js ride booking application focused on women's safety and inclusivity.                 |             |
| • Integrated features like real-time ride tracking (Google Maps API), secure login, and SOS emergency alerts. |             |

- |                                                                                                                                 |             |
|---------------------------------------------------------------------------------------------------------------------------------|-------------|
| <b>Personal Portfolio Website</b>                                                                                               | <b>2024</b> |
| • Created a fully responsive portfolio using HTML, CSS, and JavaScript to showcase academic projects, skills, and achievements. |             |
| • Implemented smooth scrolling, interactive navigation, and a contact form with email integration.                              |             |

## Training and Certifications

- |                                                                                |             |
|--------------------------------------------------------------------------------|-------------|
| • Certified in Programming in Java through NPTEL.                              | <b>2025</b> |
| • Earned a certificate in Internship Common Aptitude Test(iCAT).               | <b>2025</b> |
| • Certified in Introduction to AI by LinkedIn Learning.                        | <b>2024</b> |
| • Earned a certificate in Databases for Developers from Oracle.                | <b>2024</b> |
| • Completed Data Analytics & Visualization simulation at Accenture via Forage. | <b>2024</b> |

## Skill Set

**Technical Skills:** Html, Css, JS, Bootstrap, React.js, Express.js, MongoDB

**Soft Skills:** Tenacious, Teamwork, Time Management

**Tools:** VS Code, Google Colab, Git, Github

## Extra-Curricular Activities

- |                                                                                                 |             |
|-------------------------------------------------------------------------------------------------|-------------|
| • Secured a spot in the CodeFuse coding competition held at Allenhouse Institute of Technology. | <b>2024</b> |
| • Attended the AKTU AI Tech Confluence, powered by HCLTech and GUVI.                            | <b>2025</b> |
| • Participated in the Generative AI workshop at IIT Kanpur.                                     | <b>2025</b> |

## Workshops & Seminars

- |                                                                                     |             |
|-------------------------------------------------------------------------------------|-------------|
| • Attended Build with AI — Power of Gemini organized by Google Developer Group      | <b>2025</b> |
| • Participated in Google-DevFest Kanpur, where I explored open-source technologies. | <b>2024</b> |
| • Attended HR Symposium sessions in college.                                        | <b>2025</b> |
